## Project Management Professional

<b>Related Certificate</b>	<b>PMP</b>
<b>Course ID</b>	<b>PMP</b>
<b>Audience</b>	<b>Intermediate</b>
<b>Hours</b>	<b>24</b>

## Overview:

This course provides an overview of the Project Management Professional (PMP®) certification process. The Project Management Institute (PMI®) has grown to be recognized as the global association for project management standards. PMI's Guide to the Project Management Body of Knowledge (PMBOK®) has received recognition from the American National Standards Institute (ANSI) as the standard document for project management knowledge. PMI's project management certification (PMP®) has grown in popularity with over 180,000 certified professionals world- wide. The PMP® certificate process emphasizes the process framework involved in providing successful project management. Whether pursuing a PMP® certification or not, knowledge of PMI's process framework for project management provides an essential perspective on project management in the twenty-first century

## Objectives:

- Understand the value of project management, organizational project management maturity and the PMP® certification process
- Know an overview of what a PMP® certified project management must know how to apply
- Know the nine knowledge areas of PMI's Guide to the PMBOK®
- Know the five process groups of processes for project management
- Understand the 44 key processes of project management and how they relate
