

## PECB Certified ISO/IEC 27001 Lead Implementer

Master the implementation and management of Information Security Management Systems (ISMS) based on ISO/IEC 27001

### Why should you attend?

Information security threats and attacks increase and improve constantly. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is also a key expectation and requirement of customers, legislators, and other interested parties.

This training course is designed to prepare participants in implementing an information security management system (ISMS) based on ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement.

After attending the training course, you can take the exam. If you successfully pass it, you can apply for a "PECB Certified ISO/IEC 27001 Lead Implementer" credential, which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27001.

### Course agenda

DURATION: 5 DAYS

- Day 1: Introduction to ISO/IEC 27001 and initiation of an ISMS
- Day 2: Planning the implementation of an ISMS
- Day 3: Implementation of an ISMS
- Day 4: ISMS monitoring, continual improvement, and preparation for the certification audit
- Day 5: Certification exam

### General information

- Certification fees are included in the exam price.
- Participants will be provided with the training course material containing over 450 pages of explanatory information, examples, best practices, exercises, and quizzes.
- An attendance record worth 31 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- In case candidates fail the exam, they can retake it within 12 months following the initial attempt for free.
