Duration	24 hours

PROFE

Introduction

The ISO 31000 Risk Manager training course helps participants acquire the knowledge necessary and ability to integrate the risk management guidelines of ISO 31000 in an organization. It provides information with regard to the risk management principles and their application, as well as the core elements of the risk management framework and steps for a risk management process. In addition, it provides the basic approaches, methods, and practices for assessing risk in a wide range of situations.

Upon completion of the training course, you can sit for the exam and apply to obtain the “PECB Certified ISO 31000 Risk Manager” credential. The credential demonstrates your knowledge and ability to apply the risk management process in an organization based on the guidelines of ISO 31000 and best practices.
